Seed Market Reports

ALFALFA. Demand has been heavy. Supply of strictly top-quality seed getting smaller daily. Higher prices are expected.

TIMOTHY. Market is quite firm, with demand heavy.

ALSIKE CLOVER. Supply nearly exhausted. Prices have advanced steadily since last fall. Buyers needing this seed for later sowing, are urged to order it now.

RED CLOVER. Late buyers expecting lower prices, are disappointed this year. Wholesale markets fully \$2 per bushel higher than few months ago. Demand has been enormous in Central and Western States—causing stronger market than in several years. Supplies are getting low.

SWEET CLOVER. Prices are low. Seed quality fine. Markets steady.

PASTURE GRASSES. Markets firm. Demand good. Higher prices are looked for on many items. Time to buy this class of seed is now!

SEED OATS. Demand quite heavy. Because of late season, it will likely continue for a while. Note the quantity prices below. Remember the Freight Paid and Free Bag offers.

SEED POTATOES. Supplies of first-quality seed are nearer to being cleaned up, in Maine than for a long time. Market will likely be very active until season closes.

SEED CORN. Great demand—from all sections. Supplies selling fast. Quality here is first-class. Tested. Graded. Sound. Priced right!

SOY BEANS. Demand slow in starting, but picking up now. Prices are low. Quality of seed fine. Believe now a good time to order this seed.
